Rash Guards:

The Vermont Skin Cancer Association is a group devoted to decreasing the incidence of skin cancer through public education and increased awareness. Childhood sunburns are strongly associated with malignant tumors in later life therefore the Association is targeting children this year. As part-fund raiser and part-public service the Association is promoting rash guards for the swim teams this summer.

The rash guards are nylon/spandex mix and have at least 50 UV-protection. The shirts usually fit tightly (consider ordering a size up) and may be worn wet. “BTC” will be centered on the front of the shirt. Proceeds over cost will be donated to the Vermont Skin Cancer Association and a portion of their proceeds will go to help providing sun protection to camps serving needy children in Vermont. Colors available: Red, Navy, Light Blue, Pink and White. **Cost is \$20** (with an estimated 20% going to donation).
